

## MARUBOZU:

A Maruzobu White is a single candlestick that doesn't have lower or upper shadows, in essence that means that the opening price is the same as the low and the closing price is the same as the high. Obviously, this is a very bullish candlestick.

A Maruzobu Black is a single candlestick that doesn't have lower or upper shadows, in essence that means that the opening price is the same as the high and the closing price is the same as the low. Obviously, this is a very bearish candlestick.
